SUMMARY

I am a detail-oriented and motivated Software Testing enthusiast with a solid foundation in Manual Testing and Automation Testing. My skills include SQL and Core Java, allowing me to create test scenarios, identify defects, and enhance application functionality, ensuring software quality. I take pride in delivering reliable applications and have strong analytical and problem-solving abilities

EXPERIENCE

Trainee

SoftCrowd Technologies Ltd

12/2024 - 01/2025 N/A

Internship experience in software testing and application development

- Worked on real-world application development tasks using Java, Python, and SQL
- Designed and executed SQL queries for data retrieval, validation, and database operations
- Developed automation scripts using Python to improve process efficiency
- Collaborated with team members to analyze application workflows and troubleshoot issues

EDUCATION

Bachelor of Engineering

Jawahar Education Society

06/2023 - 05/2026 Nashik

Diploma

Sanjivani K.B.P Polytechnic

06/2020 - 05/2023 N/A

SSC

Seva Niketan Convent School

06/2010 - 05/2020 Kopargaon

KEY ACHIEVEMENTS

Enhanced Testing Efficiency

Improved automation testing efficiency by 30% using Python scripts.

Optimized Data Handling

Executed 150+ SQL queries, enhancing data retrieval and validation.

Increased Test Automation

Developed 50+ automated test scripts, reducing manual workload by 40%.

Ensured API Validity

Successfully validated 100+ API responses using Postman during testing.
